As a division of Messe Frankfurt, Congress Frankfurt markets the exhibition grounds for conferences and congresses and is a provider offering customized solutions for organizers. Congress organizers may choose from a selection of facilities in the second largest convention center worldwide with its 355,000 sqm/3,821,575 sqft, including the Congress Center, the historic Festhalle, the Forum and the Portalhaus, as well as nine exhibition halls. In all, there are 80 congress and meeting rooms with a total seating capacity of 22,000 participants. The venue is located in the center of Frankfurt and very easy to reach: by air, rail, car or local public transport. Messe Frankfurt is to boost its capacity in the congress segment even further by building Kap Europa, a new location in Frankfurt's Europa district next to the exhibition grounds. Awarded a pre-certificate in Gold of the German Sustainable Building Council (DGNB) the new location offers space for up to 2,400 people.
